16-1/2" Brake Shoes

DBL stocks brake shoes for the 16-1/2" Fruehauf XEM Series and 16-1/2" Rockwell Q Series. Other brake shoes are available upon request.

Part#	Description
ACSSHOEF	16-1/2" Fruehauf
ACSSHOER	16-1/2" Rockwell

Wabco ABS Sensor

This sensor is compatible with the Easy Stop and the Enhanced Easy Stop ABS system.

Part#	Description
ELEABSS12	ABS Sensor
ELEABSSC	ABS Sensor Clip

16-1/2" Brake Spring Kits

Kits include return and retainer springs, spring clips, roller retainers, anchor pins, mild steel bushings, rollers, and cotter pin. Kits also available with brake shoes included.

Part#	Description
ACS4515X01	Fruehauf XEM Series Kit
ACS4515Q01	Rockwell Q Series Kit

ABS Valves

Standard ABS valve for ABS systems

Part#	Description
ELEABSECU	Wabco 400-500-103-0 Brake Valve
AIR110800	Sealco ABS Service Valve

S-Cam Bushing Kits

Part#	Description
ACS08-132110	1-3/4" diameter bushing w/ 4 bolt mounting plate
ACS08-132111	1-1/2" diameter bushing with 3 bolt mounting plate
ACS08-132100	1-3/4" bushing with 4 bolt mounting plate for Dana systems
ACS08-132800	1-5/8" diameter bushing with 4 bolt mounting plate

5/8" -18 Clevis With Pin

Part# ACSCLEVIS

Standard clevis pin for 30/30 brake chamber and manual slack adjuster.

Clevis For Auto Slack Adjuster

Part# ACSCLEVISA

Standard clevis pin for 30/30 brake chamber and auto slack adjuster.

S-Cam Kit For Intraxx

Part# ACS08-130311

This kit provides all the necessary hardware to service cam shaft bushings on Hendrickson Intraxx AA-230 and AA-250 axles.

S-Cam Shaft Seal

DBL carries a wide array of S-Cam shaft seals. Featured are our most commonly requested s-cam shaft seals.

Part#	Description
SUS02-304	S-Cam Shaft Seal 1.5" x 1.87" x .25"
SUS02-313	S-Cam Shaft Seal 1.62" x 2" x .25"

Midland Gladhand Seals

Part# **AIR35007**

Midland Gladhand seals are made to fit with Midland Emergency and Service Gladhands.

Air Brake Chamber

Part# **AIRBKCHAM**

30/30 standard stroke tandem brake chamber.

Hendrickson S-Cam

28 Spline s-cam shaft for Intrax 1-1/2" diameter x 11-3/16" long.

Part#	Description
SUSS24636-1L	Left Hand S-Cam
SUSS24636-1R	Right Hand S-Cam

Midland Emergency and Service Gladhands

DBL stocks a wide variety of both service and emergency gladhands for straight mount or 38° angle mount.

Part#	Description
AIR11451	Emergency Gladhand
AIR11452	Service Gladhand
AIREGH38	Angle Emergency Gladhand
AIRSGH38	Angle Service Gladhand

Midland Gladhand Blocks

Aluminum blocks used to mount gladhands on popular style nose boxes.

Part#	Description
AIRB26003	
AIRB26004	

Sealco Standard Service Valve
Part# AIR110700

Service valve for non-ABS braking systems. Designed for use with a single reservoir on a typical single or tandem axle trailer application.

Sealco ABS Service Valve
Part# AIR110800

Service valve for ABS braking systems.

Air Tank Drain Valve With Cable
Part# AIR12105

Remotely operated steel valve to drain air tanks.

1/4" Humphrey Toggle Valve
Part# AIR125V

Steel cylinder type air valve for retail truck flow control system.

3/8" Humphrey Dump Valve
Part# AIR250V

3/8" cylinder type valve, used as dump valve for air ride suspension systems.

B/W Inversion Valve
Part# AIR277340

Steel multi-port valve for use in truck brake-lock applications.

Air Pressure Protection Valve
Part# AIR31000

One way steel check valve designed to protect air brake system.

Set of Two 3/8" Air Hose Fittings
Part# AIR31402

Quik-Fix air brake fittings for field installation on 3/8" air brake hose.

Set of Two 1/2" Air Hose Fittings
Part# AIR31403

Quik-Fix air brake fittings for field installation on 1/2" air brake hose.

Schrader Bellows Air Valve
Part# AIR34190099

Brass lever operated air valve used to operate trailer brakes and air vapor vents.

Air Protection Valve
Part# AIR378414

One way steel check valve designed to protect air brake system.

Schrader Air Valve
Part# AIRW2P

Brass body push/pull valve used as a manual dump for air suspensions.

Humphrey Air Valve

Part# **AIR41PPX**

Brass body, 1/4" manually operated valve used to open and close air operated Solimar dome lids.

B/W Double Check Valve

Part# **AIRDC-4**

All ports 3/8" NPT and may be mounted in any position. Replaces Velvac 2-way shuttle valve.

3/4" Full Function Valve

Part# **AIRFF-2-3/4**

Single valve system for single and tandem axle trailers. Prevents automatic braking in the event of in-service, service system failure. Protects supply line to 70 PSI.

B/W Inversion Valve

Part# **AIRTR-3**

3/8" air valve used for various brake interlock applications.

Humphrey 3/8" Shuttle Valve

Part# **AIRQE3**

Humphrey Super Quick Exhaust valves feature a special molded shuttle designed especially for quick exhaust valve service. **Other sizes and models available.**

3/8" Air Quick Release Valve

Part# **AIRQR-1**

3/8" NPT exhaust port, (2) 11/32" mounting holes at 1-1/2" on center, and cracking pressure of 1 PSI. 3/8" and 1/2" supply port sizes available.

Clippard Valves

Brass body 1/8" air valves used for fuel oil delivery and various other applications.

AIRTV4-DMP

AIRMJTV-3

AIRMJVO-3

AIRMPA3P

Air Relay Valves

Part#	Size
AIRRG-2	1/2" Reservoir and Delivery Ports
AIRRT-4	Multi-Function Trailer Valve

Trailer Spring Brake Air Valve

Part# **AIRSR-5**

3/4" NPT reservoir mounting port, 1/4" NPT service/spring brake reservoir, trailer supply and trailer service ports, four 3/8" delivery ports and anti-compounding.

Part#	Description
AIRFV3P	Inversion Valve
AIRMJSV1	Shuttle Valve
AIRMJTV-3	Air Switch
AIRMJVO-3	Valve
AIRMPA3P	Valve Actuator
AIRTV4-DMP	Dump Valve

Air Toggle Valve

Part# **AIRWM219-C4**

Steel 1/8" manually operated open/close air valve.

Dixon 1/4" Mini-Oiler

Part# **DIXF00-02AMB**

DBL stocks a complete line of 1/4" air components for air panels on fuel delivery trucks and for various other uses.

Air Brake Regulator

Part# **AIRR-12**

This air brake regulator is used to supply air to the service side of the brake system.

1/2" Full Function Regulator

Part# **AIRFF-2**

Single valve system for single and tandem axle trailers. Prevents automatic braking in the event of in-service, service system failure. Protects supply line to 70 PSI.

Double Hose Hanger

Part# **AIRHH**

Two piece, plastic clamp with steel eye bolt designed to hold two 1/2" air hoses.

Hose Spring

Part# **AIRHS**

Steel coil spring with loop ends designed to suspend air hoses from hose pole on tractor.

3/8" Air Hose

Part# **AIRHOSE6**

3/8" ID DOT specification air hose with black weather proof cover.

Nylon Coiled Supply and Emergency Hose

Nylon coiled air supply hoses with 1/2" NPT ends. Available in blue for service or red for emergency.

Hose Separators

Plastic clips designed to separate two air brake hoses.

Part#	Description
AIRSCB	Blue
AIRSCR	Red

Part#	Size
AIRHSS	5/8"
AIRHSM	3/4"
AIRHSL	7/8"

Air Tube

Nylon DOT spec. air tube for use in trailer brake and various other applications. Various sizes and colors available.

Part#	Size
AIRTUBE2	1/8"
AIRTUBE3	3/16"
AIRTUBE4	1/4"
AIRTUBE6	3/8"
AIRTUBE8	1/2"
AIRTUBE10	5/8"

Air Tanks

Steel, pressure tanks designed to supply air for trailer brake applications.

Part#	Size
AIRTANK8	8"
AIRTANK10	10"
AIRTANK12	12"

1/4" Drain Cock

Part# MISDC

Brass body 1/4 turn valve used for various applications in air, water, or Petroleum service.

Various sizes and configurations available.

Please call DBL for further information.

Male X Female Petcock

DBL stocks a diverse line of brass body 1/4 turn valves.

Various sizes and configurations available.

Please call DBL for further information.

Can't Find The Part You Are Looking For?

Call DBL today. We are expanding our inventory on a regular basis to meet the needs of our customers.

In Need Of a Special Order?

DBL will help your company when it comes to ordering those special items that are hard to come by or those orders that need to be customized to meet your company's specific needs.
